LAMINATE SELECTION WAIVER FORM

Shad's Custom Countertops, Inc. manufactures countertops using all of the major laminate companies' material including Formica, Wilsonart, Arborite, Pionite and Nevamar. They design their line to accommodate a range of markets and continue to manufacture laminate colors in solids and high gloss finishes.

Solid Colors tend to show more wear. Although solids are more dramatic and add contrast, they always show scratches and wear immediately and are not recommended for kitchen countertops.

Gloss Finish is appropriate for bathroom vanity countertops ONLY. Although this finish is extremely popular for kitchen countertops... in more active areas such as kitchens, it is not recommended. (Scratching, fingerprints, etc. are highly visible).

It is our opinion based on years of manufacturing that these laminates are virtually impossible to work with; without noticeable scratching or defects. We strongly recommend that our clients and their customers are aware of the nature of these products, prior to ordering their countertops and waive Shad's Custom Countertops, Inc. responsibility for such occurrences.

WAIVER

I / We, the undersigned, understand that gloss finishes and solids will show scratches and reveal limitations of the product. These imperfections are beyond SHAD'S Custom Countertop's control. No claims or adjustments will be made or accepted.
