

Solid Surface Installation Satisfaction Checklist

Customer Name: _____ PO# _____

Shad's Installer: _____ Date: _____

Please review this form with the Shad's Installer at the conclusion of your countertop installation.

Please Initial

_____ The under mount sink, is square to the countertop, and there are no scratches in or around the sink area.

_____ Faucet holes are drilled, and there are enough holes to accommodate all of your fixtures. If the holes are not drilled please explain why _____

_____ Dishwasher has been fastened to the bottom of the countertop; if not please explain why _____

_____ The stove fits in the opening. If it is a free standing range, the opening will be 30" – 30 1/8".

_____ The joint between your loose back splash and the countertop is free of any gaps larger than 1/8". The silicone is cleaned up around this area.

_____ There are no gaps between walls or end panels that are larger than 1/8"

_____ You have inspected all countertops and they are free of scratches or blemishes of any kind.

_____ The countertops are free of finger prints and glue residue. **Please note:** Under Ordinary use, darker colors will show dirt, dust, scratches, rubs, fingerprints, and watermarks more readily than lighter colors and patterns.

_____ You have received a Care and Use Kit and our installer has gone over this material with you.

_____ Installation of the countertop is a construction process and residual dust should be expected. The jobsite was left in broom-clean condition.

Comments/Suggestions

Date: _____ Customer's Signature _____ Printed Name _____

If for any reason Shad's Custom Countertops, Inc. must return to your job site after the completion of your Installation, a fee may be charged depending on the reason for the visit.
